Positions of Responsibility

Certificates

C | C++ | Full Stack Web development | Python | Web3| Oracle cloud Infrastructure Generative AI Professional

Courses Undertaken

- Data Structure and Algorithms.
- Object Oriented Programming.
- Computer Network.
- Operating System.
- Database Management System.

Positions of Responsibility

- | | |
|--------------------------------|----------|
| • volunteer in College Fest. | Feb'2024 |
| • college level cricket player | Feb'2026 |

Extracurricular Activities

- | | |
|---|-----------|
| • Cultural & Sports Activities
Participated in college-level cultural and sports events | 2023-2025 |
| • Cloud Computing Workshop
Attended workshops on Cloud Computing | |

Experience

Bloomx Business Solution - Chhindwara, IN (Graphic Designer & Video Editor)	2023-2025
---	-----------

- Designed and edited digital content with a strong focus on UI consistency, layout structure, and visual hierarchy, aligning closely with frontend development principles.
- Applied design fundamentals (typography, color systems, spacing, grids) that directly translate into clean, scalable HTML/CSS UI implementation.
- Developed a solid understanding of UI/UX concepts, improving user-centric thinking for responsive and interactive web applications.
- Worked with structured workflows and iterative improvements, similar to agile development cycles used in full-stack projects.
- Enhanced problem-solving, logical thinking, and attention to detail, essential for debugging UI issues and building reliable frontend components.
